BETTER — TOGETHER

NASCE DESVRES ARIANA

Il marchio Desvres Ariana fonde l'esperienza di due storici brand della ceramica internazionale proponendo al mercato una nuova filosofia dell'abitare, applicabile sia agli spazi indoor che agli spazi esterni, rappresentata simbolicamente dal logotipo con le lettere V e A che formano una sorta di legame tra le 2 realtà pre-esistenti. Ariana, nata nel 1967 in provincia di Reggio Emilia, da marchio di rivestimenti di medio e alto livello ha consolidato la propria presenza sul mercato con nuove tecnologie produttive e collezioni in gres porcellanato corredate da lastre e grandi formati. Desvres, azienda ceramica francese fondata nel 1863, dopo l'acquisizione di ABK Group del 2021, è stata oggetto di un corposo piano di investimenti che hanno interessato principalmente lo storico hub produttivo di Boussois, nel quale, sono stati introdotti nuovi formati, anche a spessore maggiorato per le pavimentazioni outdoor.

ANNOUNCING THE BIRTH OF DESVRES ARIANA

The Desvres Ariana brand combines the experience of two historic brands on the international ceramics scene to offer the market a new approach to living space design, applicable to both indoor and outdoor areas, symbolised by the logo in which the letters V and A form a kind of link between the two predecessor entities. Ariana, founded in the province of Reggio Emilia in 1967, has consolidated its market presence in the medium and high-end tile segment with new production technologies and porcelain stoneware collections including slabs and large-size tiles. Since its acquisition by ABK Group in 2021, French ceramics company Desvres, founded in 1863, has been the subject of a large investment plan mainly focused on its historic production hub in Boussois, where new tile sizes, including extra-thick versions for outdoor paving, have been introduced.

NAISSANCE DE DESVRES ARIANA

Desvres Ariana réunit l'expérience de deux historiques marques de la céramique internationale pour proposer, sur le marché, une nouvelle philosophie de l'habitat, applicable tant en intérieur qu'en extérieur, symbolisée par le logo formé par les lettres V et A qui nouent une sorte de lien entre les 2 entreprises. Fondée en 1967 dans la province de Reggio Emilia, Ariana, marque de revêtements de catégorie moyenne et haute, a renforcé sa présence sur le marché avec de nouvelles technologies de production et avec des collections en grès cérame proposant dalles et grands formats. Desvres, entreprise de céramique française créée en 1863, a fait l'objet d'un important plan d'investissements après le rachat par ABK Group en 2021. Celui-ci a concerné tout particulièrement l'historique centre de Boussois, où ont été introduits de nouveaux formats, y compris de grande épaisseur pour sols extérieurs.

DIE NEUE MARKE DESVRES ARIANA

In der Marke Desvres Ariana fließen die Erfahrungen zweier Traditionsunternehmen der internationalen Keramikbranche zu einer neuen Wohnphilosophie für Innen- und Außenbereiche zusammen. Die Buchstaben V und A im Logo markieren symbolisch die Verbindung zwischen den beiden bestehenden Unternehmen. Ariana wurde 1967 in der Provinz Reggio Emilia gegründet. Ausgehend von Fliesen des mittleren und oberen Marktsegments, baute das Unternehmen seine Marktposition mit neuen Produktionstechniken und Kollektionen aus Feinsteinzeug mit Platten und Großformaten aus. Der 1863 gegründete französische Keramikbetrieb Desvres stand nach der Übernahme durch die ABK Group im Jahr 2021 im Mittelpunkt eines umfangreichen Investitionsplans, der hauptsächlich das alte Produktionszentrum in Boussois betraf. Dabei wurden dort wurden neue Formate auch in Überstärke für Bodenbeläge im Außenbereich eingeführt.

THE COMPANY

MOLTO PIÙ DI UN BRAND

Dietro alla forza di Desvres Ariana c'è la storia di uno dei top player del settore ceramico Italiano diventato multinazionale con l'acquisizione di uno storico stabilimento francese, che si aggiunge alle unità produttive del distretto modenese. Abk Group vanta oggi una capacità produttiva di 15 milioni di mq al servizio di sei diversi marchi commerciali. Desvres Ariana offre una gamma di prodotti d'eccellenza, diversificata per soddisfare ogni necessità in fatto di pavimenti e rivestimenti, compresi i prodotti outdoor e le grandi lastre.

MUCH MORE THAN A BRAND

Building on its long history as one of the top players in the Italian ceramic tile industry, Desvres Ariana recently became a multinational with the acquisition of a historic French brand. Alongside the existing facilities located in the Modena area. Today ABK Group reaches a production capacity of 15 million square meters serving six different brands. Desvres Ariana offers a wide range of high-quality products suitable for all floor and wall applications, including outdoor products and large slabs.

BEAUCOUP PLUS QU'UNE MARQUE

La force de Desvres Ariana repose sur l'histoire de l'un des principaux acteurs de l'industrie céramique italienne, devenu multinationale après le rachat d'une historique usine française qui vient ainsi s'ajouter aux sites de production implantés dans le district de Modène. ABK Group peut se targuer aujourd'hui d'une capacité de production de 15 millions de m² au service de six différentes marques commerciales. Desvres Ariana propose une gamme d'excellence diversifiée pour répondre à tous les besoins en revêtements de sol et mur, y compris produits pour extérieur et grandes dalles.

VIEL MEHR ALS EINE MARKE

Hinter Desvres Ariana steht die Geschichte eines Top-Players im italienischen Keramiksektor, der durch Übernahme einer traditionellen französischen Produktionsstätte seine Werke in Modena ergänzt und zu einem multinationalen Unternehmen wird. Die ABK Group verfügt nun über eine Produktionskapazität von 15 Millionen Quadratmetern und sechs verschiedene Handelsmarken. Desvres Ariana bietet hervorragende Produkte für jeden Bedarf im Bereich Bodenbeläge und Wandverkleidungen, einschließlich Produkte für Außenbereiche sowie großformatige Platten.

THE — SURFACES

QUANDO LA MATERIA INCONTRA LA BELLEZZA

Desvres Ariana unisce il savoir faire francese alla creatività italiana per rispondere alle esigenze di un “home design” sempre più ricco e articolato, nel quale le suggestioni delle materie naturali come legni, pietre e marmi, si fondono alle ispirazioni contemporanee e industriali dei cementi. Una proposta completa che comprende sia i formati tradizionali che le grandi lastre, in diverse finiture di superficie, per la progettazione del sistema casa, in perfetta continuità fra interni ed esterni.

WHEN BEAUTY AND MATTER MEET

Desvres Ariana combines French savoir faire with Italian creativity to meet the demands of an increasingly complex, varied home design sector, in which natural material looks such as woods, stones and marbles merge with the contemporary, industrial inspirations of concretes. A full assortment embracing both standard sizes and large slabs, in a variety of surface finishes, for designing the entire home system with perfect indoor-outdoor continuity.

LORSQUE LA MATIÈRE S'UNIT À LA BEAUTÉ

Desvres Ariana concilie le savoir-faire français à la créativité italienne pour satisfaire aux exigences d'un « home design » de plus en plus riche et sophistiqué, dans lequel les charmes des matières naturelles, comme bois, pierres et marbres, fusionnent avec les inspirations contemporaines et industrielles des ciments. Une proposition complète qui inclut aussi bien les formats traditionnels que les grandes dalles, en plusieurs finitions pour dessiner un système maison en parfaite symbiose entre intérieur et extérieur.

WENN MATERIAL UND SCHÖNHEIT AUFEINANDERTREFFEN

Desvres Ariana vereint französisches Savoir-faire mit italienischer Kreativität und schafft es so, die Anforderungen bei einem immer komplexeren und strukturierteren Home Design zu erfüllen. Dabei verbinden sich die Inspirationen natürlicher Materialien wie Holz, Stein und Marmor mit dem zeitgenössischen und industriellen Charakter von Beton. Das Komplettprogramm umfasst sowohl traditionelle Formate als auch großformatige Platten in verschiedener Optik, sodass bei der Planung der Wohnräume ein nahtloser Übergang zwischen Innen- und Außenbereichen möglich ist.

THE—INNOVATION

L'esclusiva tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati sia per le pavimentazioni interne, che nei progetti wellness e outdoor, anche in aree pubbliche o commerciali.

P. tech

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness and outdoor spaces in public or commercial areas.

L'exclusive technologie P.TECH améliore la résistance à la glissance tout en conservant une agréable sensation au toucher. P.TECH se base sur un révolutionnaire procédé de production qui accorde la sélection des matières premières aux étapes de pressage, de cuisson et de façonnage en aval. Même si les produits P.TECH possèdent les plus hauts coefficients de frottement, ils se nettoient facilement et peuvent donc être posés sur les sols intérieurs, dans les projets wellness et outdoor, y compris dans les lieux publics ou commerciaux.

Die exklusive Technik P.TECH verbessert die Rutschhemmung, ohne dass die angenehme Haptik verloren geht. P.TECH ist aus einem innovativen Produktionsprozess hervorgegangen, der alle Phasen von der Auswahl der Rohstoffe über das Pressen und Brennen bis zur Endbearbeitung umfasst. Die P.TECH Produkte sind trotz der sehr hohen Reibungskoeffizienten leicht zu reinigen. Daher eignen sie sich sowohl für Bodenbeläge in Innenräumen als auch für Wellness- und Outdoor-Projekte, auch in öffentlichen oder gewerblichen Bereichen.

La nuova tecnologia 3D Tech consente di applicare differenti materie ceramiche, anche a spessore, in perfetta corrispondenza con la grafica sottostante, realizzata in digitale ad altissima definizione. Un processo produttivo rivoluzionario, che combina la matericità con l'estetica del prodotto, fino ad ottenere superfici dallo straordinario valore sensoriale.

The new 3D Tech technology allows thick layers of various ceramic materials to be applied in perfect alignment with the underlying graphic designs, which are created digitally with extremely high definition. This revolutionary production process combines material and aesthetic effects to create surfaces with extraordinary sensorial appeal.

La nouvelle technologie 3D Tech permet d'appliquer différentes matières céramiques, même dans des épaisseurs diversifiées, en union parfaite avec le graphisme sous-jacent réalisé à l'aide d'une technique numérique à très haute définition. Un procédé de production révolutionnaire qui associe effet matière et esthétique pour créer des surfaces flanquées d'une extraordinaire valeur sensorielle.

3D tech

Mit der neuen Technik 3D Tech kann unterschiedliches – auch unterschiedlich dickes – Keramikmaterial perfekt ausgerichtet auf das digital erstellte, hochauflösende grafische Muster aufgebracht werden. Es handelt sich dabei um einen revolutionären Produktionsprozess, der die Stofflichkeit und die Ästhetik des Produkts zusammenbringt, um Oberflächen mit hervorragender Haptik zu erhalten.

THE — ENVIRONMENT

UN PROGETTO SOSTENIBILE

Desvres Ariana è impegnata quotidianamente nella salvaguardia ambientale con un programma di azioni concrete. I parametri di emissione degli impianti produttivi sono al di sotto dei limiti consentiti dalle normative vigenti perché i consumi di energia vengono ridotti da appositi dispositivi di recupero termico.

L'acqua viene totalmente riutilizzata all'interno del ciclo industriale e tutti i residui di lavorazione delle materie prime vengono reimpiegati nel ciclo produttivo, con performance virtuose rispetto agli standard di settore.

A SUSTAINABLE PROJECT

Protecting the environment is an integral part of Desvres Ariana's daily operations, thanks to a programme of real, effective actions. The product plants' emissions parameters are below the legal limits because energy consumption is reduced by special heat recovery devices.

All water is reused within the industrial cycle and all raw material processing residues are returned to the production cycle, generating performances well above the sector standards.

UN PROJET DURABLE

Desvres Ariana s'engage chaque jour à défendre l'environnement à l'aide d'un programme d'actions concrètes. Dans les sites de production, les valeurs d'émissions se situent au-dessous des limites posées par les réglementations en vigueur.

En effet, les consommations d'énergie sont réduites par des dispositifs de récupération thermique.

La totalité de l'eau est réutilisée à l'intérieur du cycle industriel, et tous les déchets de matières premières sont réinjectés dans le cycle de production. Par rapport aux standards de secteur, les performances sont tout simplement vertueuses.

EIN NACHHALTIGES PROJEKT

Desvres Ariana setzt sich jeden Tag mit einem konkreten Aktionsplan für den Umweltschutz ein. Die Emissionswerte der Produktionsanlagen liegen unter den gesetzlich vorgeschriebenen Grenzwerten, denn der Energiebedarf wird mithilfe spezieller Anlagen zur Wärmerückgewinnung reduziert.

Innerhalb des Produktionszyklus wird das gesamte Wasser recycelt und alle Bearbeitungsrückstände von Rohstoffen werden wiederverwendet.

Auf diese Weise wird eine in Bezug auf die Branchenstandards vorbildliche Leistung erzielt.

Articolo composto da pattern grafici diversi che non prevedono agganci tra loro e miscelati in modo casuale in fase di inscatolamento. Non si garantisce pertanto la presenza costante di tutti i soggetti all'interno delle confezioni. La non perfetta continuità di linee, rilievi o motivi grafici tra piastrelle adiacenti è naturale conseguenza del processo produttivo, pertanto non costituisce un vizio del prodotto.

This article comes in several different versions with unconnected patterns that are mixed randomly at the time of packaging. There is therefore no guarantee that all patterns will be present in any individual box. Any variations in graphic designs or textures between adjacent tiles are a natural consequence of the manufacturing process and do not constitute a product defect.

Consigli di posa e pulizia

AVVERTENZE GENERALI

Indipendentemente dal tipo di prodotto e formato scelto, prima di procedere con la posa è opportuno fare una verifica sul cantiere per valutare le condizioni dei sottofondi. La posa richiede le migliori condizioni del sottofondo. Che dovrà sempre essere:

- asciutto e stagionato,
- planare e privo di fessurazioni,
- pulito, libero da polvere detriti o grumi di cemento,
- compatto e resistente.

La perfetta riuscita di un pavimento o di un rivestimento è il frutto della combinazione di molteplici fattori; per ottenere il migliore effetto estetico nella posa è opportuno ricordare che i prodotti ABK Group prevedono un numero variabile di pattern grafici, la cui successione all'interno delle scatole avviene in modo del tutto casuale.

MOVIMENTAZIONE E POSA DELLE GRANDI LASTRE

Tutti i formati che superano i 100 cm di lunghezza e di larghezza devono essere maneggiati da 2 posatori. Per una corretta gestione delle lastre, a partire dalla fase di apertura degli imballi, è necessario avvalersi di dispositivi idonei. Per la movimentazione manuale e la successiva posa in opera è consigliato l'utilizzo di barre di movimentazione con ventose. È opportuno effettuare le operazioni di taglio su una superficie piana, stabile e planare. È consigliato l'utilizzo di guide da taglio professionali con carrello incisore.

Il collante dev'essere applicato sia sul fondo di posa che sul retro delle lastre. Si consiglia l'utilizzo di adesivo in polvere a base cementizia a letto pieno di classe C2F (E) S1/S2.

Stendere il collante sulla superficie da rivestire con spatola a denti inclinati con dente minimo di 8mm con movimenti lineari e mai circolari, stendere il collante sul retro della lastra con spatola dentata mai inferiore a 5 mm (tenendo conto che la somma delle spatole utilizzate per sottofondo e lastra dev'essere compresa fra i 13 e i 14mm).

Per far defluire le bolle d'aria che si possono formare fra la lastra e l'adesivo è consigliabile avvalersi di un battitore manuale in gomma o degli appositi dispositivi elettrici batti-piastrelle.

La fuga minima consigliata, in relazione alla posizione dei giunti di dilatazione, è di 2 mm. Nel caso di pareti e pavimenti a contatto, da posare entrambi con lastre ceramiche, è indispensabile rispettare questa larghezza minima per garantire un perfetto risultato nel tempo. A rivestimento è possibile realizzare fughe inferiori in base alle opportune verifiche tecniche da effettuarsi sul cantiere. Le fughe dovranno essere riempite per almeno i 2/3 dello spessore con l'apposito sigillante, prestando attenzione all'eventuale presenza di residui di adesivo all'interno.

POSA DEI PRODOTTI RETTIFICATI

Per raggiungere un effetto ottimale Desvres Ariana suggerisce di mantenere almeno 1 o 2 mm di fuga per una posa mono-formato e 2 mm per combinare formati misti nelle pose modulari suggerite dai cataloghi.

POSA DEI PRODOTTI NON RETTIFICATI

L'alto grado di greificazione delle piastrelle Desvres Ariana comporta modeste tolleranze di calibro, pertanto nella posa dei prodotti a bordo naturale è consigliabile lasciare una fuga di almeno 3 mm fra le piastrelle.

OPERAZIONI PRELIMINARI

Una volta scelto il materiale da posare, coerentemente con i requisiti tecnici, lo stile e la destinazione d'uso degli ambienti, è bene seguire alcune raccomandazioni prima di procedere con l'installazione:

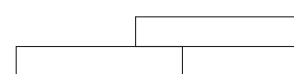

- stendere a terra almeno 3mq di prodotto per controllare l'effetto d'insieme, avendo cura di verificarne accuratamente calibro, tonalità e scelta.
- Specie nel caso di prodotti con elevata variabilità grafica, è bene posare il materiale attingendo da più scatole, le variazioni grafiche e cromatiche del prodotto sono una caratteristica qualificante che l'abilità del posatore può valorizzare, al contrario un prodotto posato senza tenerne conto può risultare esteticamente poco gradevole.
- È opportuno evitare di segnare la parte superiore delle piastrelle con matite o pennarelli e dedicare particolare attenzione ai prodotti lucidi, patinati o lappati che dovranno essere coperti durante i lavori di cantiere.
- Attendere 48/72 ore prima di sottoporre il pavimento al normale transito.

La posa senza fuga, soprattutto nei grandi formati è fortemente sconsigliata dai maggiori produttori di collante per i seguenti motivi:

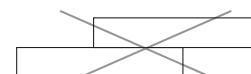

- Difficoltà di assorbimento di eventuali movimenti strutturali in assenza di elementi comprimibili.
- Diverso comportamento dilatometrico fra piastrelle e massetto, in presenza di elevate escursioni termiche.
- Difficoltà di realizzazione di una duratura ed efficace stuccatura.

Desvres Ariana sconsiglia assolutamente pose senza fuga, per le quali si declina ogni responsabilità.

Durante le operazioni di posa, nel caso venga scelto uno schema sfalsato, evitare di far coincidere i vertici di una piastrella con la metà delle altre a fianco.

Posa corretta

Posa sconsigliata

Installation and cleaning advice

GENERAL WARNINGS

Regardless of the chosen product type or size, an on-site inspection should be carried out prior to installation to assess the conditions of the substrates. Perfect substrate conditions are essential for a successful installation. Substrates must be:

- dry and properly cured,
- flat and free of cracks,
- clean and free of dust, debris or lumps of cement,
- compact and strong.

The success of a floor or wall tile installation is the result of a combination of multiple factors; to achieve the best possible aesthetic effect in installation, remember that ABK Group products come in a variable number of graphic patterns packed in boxes in a completely random sequence.

SLAB HANDLING AND INSTALLATION

All slabs with length and width greater than 100 cm must be handled by 2 installers. Always use proper equipment to handle the slabs, from the unpacking stage onwards. For manual handling and installation, the use of handling bars with suction cups is recommended.

Slabs should be cut on a flat, stable surface. Use professional cutting guides with a cutting slide.

Adhesive must be applied to both the substrate and the back of the slab. The use of a Class C2F (E) S1/S2 cement-based full-bonding powder adhesive is recommended.

Apply the adhesive to the surface using a slanted-notch trowel with a minimum notch size of 8 mm. Be sure to perform linear and not circular movements. Apply the adhesive to the back of the slab using a notched trowel with a minimum notch size of 5 mm. Note that the sum of the notch sizes of the trowels used for the slab and substrate must be 13-14 mm.

Use either a rubber mallet or an electric tile vibrator to eliminate any bubbles that may form between the slab and the adhesive.

Expansion joints between slabs should have a width of at least 2 mm. When ceramic slabs are installed on both the floors and walls, a minimum joint width of 2 mm must be left between the two surfaces to ensure perfect, trouble-free installation. A smaller joint width can be used on walls, subject to a technical assessment carried out on-site. The joints must be filled to at least 2/3 of their depth with grout, taking care to remove all adhesive from the joint first.

INSTALLATION OF RECTIFIED-EDGED TILES

For optimal results, Desvres Ariana recommends allowing a joint of at least 1 or 2 mm when laying same-sized tiles and 2 mm for different-sized tiles laid using the modular systems described in the catalogues.

INSTALLATION OF NON-RECTIFIED TILES

The high degree of vitrification of Desvres Ariana tiles means dimensional tolerances are low. Therefore, when laying tiles with natural press-formed edges, at least a 3mm joint should be allowed between each tile.

PRELIMINARY OPERATIONS

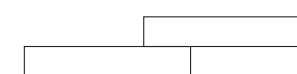

- It is advisable to follow some recommendations before proceeding with the installation of the selected tiling material, which should be carried out in compliance with the technical requirements, style and intended application;
- Place some tiles (at least 3 m²) over the flooring surface to check the final effect, making sure you have the right tile size, shade, and quality class.
- In the case of products whose graphics tend to differ considerably from one tile to the next, it is advisable to take the tiles from different boxes and mix them. The graphic and colour variations of the tiles are an important feature which can be enhanced by a skilled tile layer. Overlooking such features, on the contrary, may lead to poor aesthetic results.
- Avoid marking the front of the tiles with pencils or markers. Be particularly careful with glossy, matt or lapped tiles, which should be kept covered during building work.
- Wait 48/72 hours before walking over the newly laid tiles.

Jointless tile installation, particularly in the case of large-size tiles, is strongly advised against by most adhesive manufacturers for the following reasons:

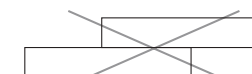

- Any structural adjustments may not be absorbed due to the lack of compressible material.
- Wide temperature ranges may cause expansion effects between the tile and screed.
- Effective, durable grout joints may be difficult to achieve.

Desvres Ariana strongly advises against jointless tile installation and cannot be held liable for any damage deriving therefrom.

When laying tiles in a staggered pattern, make sure there are no tiles positioned with the corner coinciding with the centre of the adjacent tiles.

Right installation

Wrong installation

Consigli di posa e pulizia

STUCCATURA

- Qualora non si utilizzasse la boiacca composta da cemento e sabbia, si consiglia di utilizzare colori di stucco su tono (possibilmente non utilizzare su materiali di colore chiaro stucchi di colore scuro, tipo nero, blu, rosso) e di verificare la compatibilità dei riempitivi per fughe con il prodotto ceramico.
- Riempire le fughe con gli stucchi solo quando il pavimento è calpestabile, togliendo preventivamente dalle fughe ogni tipo di residuo.
- Eseguire la stuccatura a “regola d’arte”, seguendo le indicazioni del progettista, del responsabile di cantiere e del capitolato di posa.
- Stuccare piccole superfici per volta (4/5 mq) e asportare le quantità eccedenti con spugne o stracci umidi (di sola acqua pulita).
- Stucchi cementizi non additivati: seguire attentamente le indicazioni dei fabbricanti, a fine giornata pulire i residui di posa con spugna appena bagnata.
- Stucchi epossidici o additivati (con lattici, ecc.): seguire attentamente le indicazioni dei fabbricanti, perché il loro rapido indurimento può richiedere pulizie molto laboriose, specialmente se la superficie delle piastrelle è antiscivolo, ruvida o strutturata.

STUCCATURA

LAVAGGIO DOPO LA POSA

Il lavaggio dopo la posa è una fase di fondamentale importanza per tutti gli interventi successivi e per la manutenzione.

La pulizia di fine cantiere fatta con prodotti a base acida tamponati, quali ad esempio Deterdek di Fila o Cement Remover di Faber etc. va eseguita una sola volta e presenta l’ulteriore vantaggio di conferire uniformità cromatica alla superficie.

Con il lavaggio acido dopo la posa si eliminano i residui di posa e il normale sporco di cantiere come: malta, colla, pittura, sporco da cantiere di varia natura. È bene sapere che oltre il 90% delle contestazioni in cantiere è dovuto ad un cattivo, o addirittura inesistente, lavaggio con detergente acido dopo posa. Per evitare che un prodotto a base acida usato per la prima pulizia vada ad intaccare il riempimento a base cementizia delle fughe, è necessario, prima dell’operazione di pulizia, bagnare il pavimento affinché le fughe vengano impregnate e pertanto protette dall’azione corrosiva dell’acido stesso.

È opportuno:

- Togliere con appositi detergenti a base alcalina sostanze grasse o simili
- Procedere al lavaggio dopo la posa
- Risciacquare abbondantemente il pavimento, raccogliendo l’acqua residua.
- La pulizia si esegue dopo 4-5 giorni dalla stuccatura (lo stucco deve indurire) e non oltre i 10 giorni, oltre questi tempi la pulizia può diventare molto più laboriosa; attenersi scrupolosamente ai consigli riportati dal produttore di detergenti.

Fare sempre test preventivi (su una piastrella non posata), in particolare per prodotti lappati o levigati.

Installation and cleaning advice

STUCCATURA

- Should a grout made of cement and sand not be used, it is recommended to use shade-on-shade grouts (do not use dark grouts, such as black, blue or red, on bright materials) and to verify the compatibility of the grouts with the ceramic tile.
- Fill the grout lines with the grout only when the floor has sufficiently set to be ready to tread on, removing any residue from the gout lines.
- Carry out a state-of-the-art grouting following the layer and technician's instructions and the technical specifications.
- Grout small areas of the surface at a time (4m≤ to 5m≤) and remove excess grout with a sponge or a wet cloth (with clean water).
- Non-added cement grouts: follow the manufacturer’s instructions carefully and at the end of the working day clean the surface with a slightly damp sponge.
- Epoxy grouts or added grouts (with latex, etc): follow the manufacturer’s instructions to the letter as rapid hardening can lead to difficult cleaning operations, especially in case of anti-slip, rough or textured tiles.

STUCCATURA

CLEANING AFTER INSTALLATION

The cleaning after installation is of fundamental importance for all the subsequent steps and for a correct maintenance.

Post-installation cleaning using acid detergents with a padding action such as Fila Deterdek or Faber Cement Remover must be carried out only once and only if this would result in the added bonus of giving the surface a more uniform aspect.

Acid-cleaning will remove all residue associated with the installation and works in general, such as mortar, adhesive, paint and dirt. It is important to underline that 90% of complaints are due to a bad, or even inexistent cleaning after installation. In order to make sure that an acid detergent used for the cleaning does not compromise the filling of grout lines, it is necessary, before proceeding with cleaning, to wet the floors so that the grout lines are impregnated and protected from the corrosive action of the acid.

It is recommended to follow these steps:

- First, remove any grease or similar substance from the floor using alkaline detergents
- Proceed with the cleaning of the surface
- Rinse the floors with an abundance of water
- The cleaning must be carried out 4-5 days after grouting (the grout must season) and within a maximum of 10 days after grouting, as, beyond this period of time the cleaning can be difficult, carefully follow the manufacturer’s instructions for the use of detergents.

It is always recommended to carry out a test on a sample tile (not installed), in particular in case of honed or polished products.

Pulizia e manutenzione

STUCCATURA

MANUTENZIONE ORDINARIA

Si consiglia l’utilizzo di un comune detergente neutro diluito in acqua calda. Evitare l’utilizzo di prodotti acidi, alcalini, ceranti e/o impregnanti.

Nella pulizia ordinaria occorre limitare al massimo l’uso di mezzi abrasivi (ad esempio: paglietta di metallo, spugnette di ferro o acciaio). Questa precauzione diventa un obbligo nel caso di piastrelle con superficie lucida, più esposte ad effetti visibili di scalfitture, graffi...

In caso di sporchi più intensi o di superfici particolarmente strutturate, usare un detergente a base alcalina risciacquando al termine del lavaggio.

Nella pratica quotidiana occorre considerare che certi tipi di sporco (polvere, sabbia) aumentano l’effetto abrasivo del traffico pedonale. Cercare quindi di prevenire la presenza di questa tipologia di sporco dall’esterno, predisponendo l’utilizzo di zerbino o stuoino all’ingresso.

STUCCATURA

RIMOZIONE DI PATINE LUCIDE

Nei normali detergenti in commercio sono a volte contenute cere o additivi lucidanti che, lavaggio dopo lavaggio, depositano sul pavimento patine lucide, causa di noiose alonature. Patine di questo tipo possono essere depositate anche da alcuni stucchi per le fughe. Semplici alimenti come Coca Cola, vino, acqua, etc., cadendo sul pavimento tolgono questa patina lucida e ripristinano l’aspetto originale più opaco delle piastrelle. In mezzo al pavimento più lucido, le zone senza cera appaiono come aloni opachi, in realtà sono le uniche parti pulite del pavimento.

In questi casi, dopo aver fatto un test preventivo, bisogna:

- Togliere la patina lucida da tutto il pavimento con un tipo di detergente a base acida.
- Utilizzare per le pulizie quotidiane, detergenti neutri che non contengono né cere né patine lucidanti.

STUCCATURA

MANUTENZIONE STRAORDINARIA

Nel caso di tracce di sporco resistente alla pulizia ordinaria si raccomanda l’utilizzo di un detergente adeguato in funzione del tipo di sporco e comunque, prima dell’uso, fare sempre test preventivi su una piastrella non posata. Nella tabella “PRODOTTI PER LA PULIZIA E LA MANUTENZIONE” sono indicati i detergenti efficaci in funzione del tipo di macchia.

STUCCATURA

PAVIMENTI E RIVESTIMENTI METALLIZZATI

Per la pulizia e manutenzione di piastrelle metallizzate si raccomanda di non usare assolutamente detergenti acidi o alcalini. Usare esclusivamente prodotti con PH neutro come ad esempio Fila Cleaner o Floor Cleaner di Faber. In ogni caso verificare sempre prima il prodotto su una porzione di materiale non posato ed evitare di lasciare il detergente sulle piastrelle per più di 10-15 min. Risciacquare sempre abbondantemente con acqua.

STUCCATURA

TRATTAMENTO PRODOTTI LAPPATI E LEVIGATI

Lappatura e Levigatura sono lavorazioni che prevedono sempre l’asportazione di una parte superficiale dello smalto o del corpo stesso della piastrella. In tutti i pavimenti ceramici disponibili sul mercato, tale lavorazione, pur in presenza di materiali vetrosi o a bassissimo assorbimento, può comportare l’apertura di microporosità superficiali che a contatto con particolari tipi di sporco, possono risultare di difficile pulizia o presentare aloni difficilmente rimuovibili.

STUCCATURA

RACCOMANDAZIONI

Ricordiamo di non usare mai detergenti a base di acido fluoridrico (HF) o dei suoi composti, compresi antiruggine o smacchiatori di tipo spray che spesso lo contengono. Il danno che si potrà provocare sarà irreparabile in quanto non esiste pavimento sul mercato resistente a tale acido.

STUCCATURA

AVVERTENZE

Le caratteristiche di pulizia dei materiali variano in modo significativo in funzione delle diverse modalità di installazione, condizioni d’uso, tipologie di superfici e ambiente. In linea generale all’aumentare delle caratteristiche di antiscivolosità delle piastrelle, aumentano le difficoltà di pulizia. L’operatore professionale incaricato dell’intervento di manutenzione e pulizia, dovrà sempre procedere ad una preliminare verifica empirica, possibilmente su una porzione di materiale non posato, per ogni singolo tipo di intervento.

In caso di condizioni d’uso particolarmente gravose, di errata installazione o di pulizie effettuate in modo inadeguato Desvres Ariana declina ogni responsabilità in merito all’efficacia delle operazioni di pulizia e manutenzione. Resta inteso che Desvres Ariana non potrà essere ritenuta responsabile per eventuali danni o difetti dovuti ad errata installazione, negligente pulizia e manutenzione o inadeguata scelta della tipologia dei materiali installati e degli adesivi utilizzati con riguardo alla destinazione.

Le indicazioni contenute in questo paragrafo sono puramente indicative. Per notizie più approfondite rimandiamo a documentazione specializzata disponibile su cataloghi e siti web delle principali ditte produttrici di prodotti specifici per la pulizia dei pavimenti.

Cleaning and maintenannce

STUCCATURA

DAILY MAINTENANCE

It is recommended to clean the floor using a neutral detergent diluted in hot water. Avoid the use of acid, alkaline, waxing and/or impregnating products.

During ordinary cleaning procedures, it is recommended to limit the use of abrasive means such as scouring pads, iron and/or steel sponges. Taking this precaution is a must on glossy tiles, as they are more liable to scratching.

In case of intense dirt or textured surfaces, use an alkaline detergent, rinsing the floor with an abundance of water.

It is important to underline that certain types of dirt like dust or sand, increase the abrasive effect of foot traffic on the surface. The use of a door mat at the entrance can help prevent this.

STUCCATURA

REMOVAL OF FILMS ON THE FLOOR

The standard detergents available on the market sometimes contain waxes or polishing additives that, cleaning after cleaning, create a film on the floor and cause rims. This type of film can also develop when using certain types of grouts. Every-day stains on the floor, such as cola, wine, water, etc. remove this film and reveal the original, more opaque aspect of the tiled surface. On a glossy floor, these areas with no wax appear as rims but, in actual fact, they are the only clean areas of the floor itself.

In such cases, after having carried out a test, it is necessary to:

- Remove the film from the floor using an acid detergent.
- Use neutral detergents, which do not contain wax or polishing additives for everyday cleaning.

STUCCATURA

EXTRAORDINARY MAINTENANCE

In case of stains that are resistant to standard cleaning operations, it is recommended to use a specific detergent depending on the type of dirt and, every single time before using such detergent, to carry out a test on a non-installed sample tile. The chart “REMOVE STAINS” indicates the recommended detergents that are effective for certain specific stains.

STUCCATURA

METALLISED FLOOR AND WALL COVERINGS

For the cleaning and maintenance of metallised tiles, it is recommended not to use acid or alkaline detergents. Use products with neutral PH such as Fila Cleaner or Faber Floor Cleaner. Every single time, test the product on a sample tile that has not been installed and do not leave the detergent on the tiles for more than 10-15 minutes. Always rinse the surface with an abundance of water.

STUCCATURA

TREATMENT OF HONED AND POLISHED TILES

Honing and polishing are manufacturing processes that always remove a superficial part of the glaze or of the body of the tile itself. All honed and/or polished ceramic tiles available on the market have a micro-porous structure that, even when using low absorption vitreous materials, are vulnerable to attack from certain types of dirt that can attack the micro-porous structure and make cleaning operations very difficult.

STUCCATURA

RECOMMENDATIONS

Never use hydrofluoric acid-based detergents or its derivatives, such as rust-preventing products or spray stain-removers that often contain hydrofluoric acid. The use of hydrofluoric acid will irreparably damage the surface, as no ceramic tile floor available on the market is resistant to this acid.

STUCCATURA

WARNING

The cleaning features of materials considerably vary depending on the installation pattern, the conditions of use and the type of surface. As a general rule, as the anti-slip value of ceramic tile increases, the cleaning operations become more difficult.

The professional technician in charge of the cleaning and maintenance must always carry out a preliminary test on a sample tile that has not been installed before proceeding with any cleaning operation.

In case of special conditions of use, incorrect installation or inadequate cleaning, Ceramiche Desvres Ariana will not be responsible for the effectiveness of cleaning and maintenance procedures. It is agreed that Desvres Ariana will not be responsible for any damage or defects that are due to incorrect installation, cleaning and maintenance or due a wrong choice of materials and adhesives.

The above-stated instructions are merely indicative. For in-depth information, please consult the specific documents that are available on the catalogues and web-site of the manufacturers of detergents for ceramic floors.

Origine francese garantita

Desvres Ariana ha ottenuto l'Origine France Garantie all'inizio del 2015.

Questo certificato è stato ottenuto perché la nostra produzione è principalmente francese. È quindi un requisito di qualità che garantisce il sostegno di Desvres Ariana all'occupazione locale e alla salvaguardia dell'industria.

Desvres Ariana è quindi il primo e unico produttore di ceramica che beneficia del marchio Origine France Garantie.

Origine France garantie

Desvres Ariana a obtenu le label Origine France Garantie début 2015.

Ce label a été obtenu parce que notre production et notre savoir-faire sont majoritairement français. Il constitue donc une exigence de qualité garantissant le soutien de Desvres Ariana à l'emploi local et la sauvegarde du savoir-faire industriel.

Desvres Ariana est ainsi le premier et le seul fabricant de céramique à bénéficier du label Origine France Garantie.

Guaranteed French origin

Desvres Ariana was awarded with the label French Origin Guarantee at the beginning of 2015.

Desvres could obtain this label since its production and know-how are mainly french. This label is a quality requirement which commits Desvres Ariana to support local employment while protecting and maintaining its industrial knowledge.

Desvres Ariana is in this way today the first and only ceramic producer which got the label French Origin Guarantee.

Ecosostenibilità e certificazioni | Eco-sustainability and certifications

ECO-BODY

L'impegno concreto di Desvres Ariana in termini di sostenibilità continua anche grazie agli esclusivi impasti ECO-BODY, contenenti un 40% minimo di materie prime di qualità recuperate da lavorazioni esterne ed interne, utilizzati per diverse collezioni contenute in questo catalogo. Il valore di questa percentuale è garantito da Bureau Veritas, che certifica l'impasto ECO-BODY. Tale caratteristica consente ai nostri prodotti di contribuire al calcolo dei crediti utili ai fini della certificazione LEED degli edifici. È possibile scaricare l'elenco completo dei prodotti ECO-BODY nell'area download del sito Desvres Ariana.

Desvres Ariana's concrete commitment to sustainability continues thanks to the exclusive ECO-BODY mixes, containing a minimum of 40% of high quality raw materials, recovered from external and internal processing, used for several collections in this catalogue. The value of this percentage is guaranteed by Bureau Veritas, which certifies the ECO-BODY mixture. This feature allows our products to be included in the calculation of credits for the LEED building certification. You can download the complete list of ECOBODY products in the download area on the Desvres Ariana website.

Programma GPP | GPP Program

Desvres Ariana aderisce al programma GPP (buone prassi fitosanitarie) per la spedizione di piastrelle in ceramica verso gli USA. Desvres Ariana adheres to GPP program (Good phytosanitary practices) in the shipment of ceramic tiles to the USA.

Marcatura CE | CE Mark

Per i suoi prodotti, Desvres Ariana ha provveduto ad assolvere agli obblighi derivanti dalla Marcatura CE. For his products Desvres Ariana has provided to fulfill the obligations deriving from the CE marking.

Marcatura CCC | CCC Mark

Desvres Ariana ha ottenuto la certificazione CCC per l'esportazione di piastrelle verso il mercato Cinese. Desvres Ariana obtained the CCC certification for the export of tiles to Chinese market.

Marchio SQM | SQM Mark

Desvres Ariana ha ottenuto la certificazione di qualità SQM. Per approfondimenti consultare il sito Desvres Ariana. Desvres Ariana obtained the SQM quality certification. For further information consult the ABK website.

Costruire sostenibile

I nostri materiali contribuiscono allo sviluppo di un'edilizia in un'ottica di sostenibilità ambientale e di salvaguardia della salute:

- resistenti all'usura e facili nella manutenzione;
- classificati A+;
- resistenti al fuoco e agli sbalzi di temperatura;
- certificati QB-UPEC e testati secondo i criteri di riferimento sulle norme antiscivolo.

Tale processo si fonda su una politica di controllo qualità e sulla creazione di modelli di dichiarazione ambientale e sanitaria, F.D.E.S. Aderiamo così al processo Hqe, Alta Qualità Ambientale.

Sustainable building

Our tiles contribute to the construction of healthy and environmentally friendly buildings:

- Resistant and easy to clean;
- Classified as A+;
- Fireproof and resistant to temperature shifts;
- QB-UPEC certified, as well as tested according to the slip resistance standards.

This sustainable approach implies a quality control procedure and the creation of the F.D.E.S., health and environmental declaration. This way we have enrolled in the HQE, High Quality Environmental standard.

Fiche de Déclaration Environnementale & Sanitaire F.D.E.S. Carreaux Ceramiques

Construire durable

Nos grès cérame participent à la construction d'ouvrages sains et confortables:

- ils sont très résistants et sans entretien fastidieux;
- ils bénéficient de l'étiquetage sanitaire A+ car ils n'émettent ni COV, ni formaldéhydes;
- ils sont incombustibles, imputrescibles et insensibles aux écarts de température;
- ils sont certifiés QB-UPEC et testés selon les normes en vigueur sur la résistance à la glissance.

Cette démarche s'appuie sur des contrôles qualité continus mis en valeur sur la F.D.E.S. grès cérame. Nous nous inscrivons de ce fait dans la démarche HQE.

Condizioni generali di vendita

- APPROVAZIONE** Gli ordini pervenutici sono per noi impegnativi solo dopo la nostra conferma scritta.
- CONSEGNA** La consegna del materiale s’intende avvenuta a carico effettuato presso i nostri magazzini. Tutti i rischi di trasporto, compresi ammanchi, rotture, deterioramenti e manomissioni sono a carico del Committente anche se il prezzo pattuito è franco di porto, FOB o C&F. Gli accordi con spedizionieri s’intendono sempre conclusi in nome e per conto del Committente che fin d’ora ratifica ed accetta l’operato.
- TERMINI DI CONSEGNA** I termini di consegna hanno carattere indicativo, eventuali ritardi nelle consegne, interruzioni, sospensioni totali o parziali delle forniture non daranno diritto ad indennizzi o risarcimento danni.
- CONTESTAZIONI** La garanzia della merce è limitata al solo, ed esclusivamente, materiale di prima scelta, con una tolleranza del 5% circa. Le differenze di tonalità non potranno essere denunciate come vizio del materiale. Eventuali reclami in merito alla qualità, tipo del materiale, dovranno pervenirci entro 8 giorni dalla data di consegna. Il compratore s’impegna a tenere a disposizione le partite contestate così da consentire il controllo dei difetti denunciati, in ogni caso la posa in opera ci esonera da qualsiasi responsabilità. Eventuali vizi o difetti di qualità della merce, ove siano denunciati nei termini di legge ed accertati o riconosciuti, danno diritto solamente alla sostituzione dei materiali difettosi, a condizione della preventiva restituzione delle merci contestate, e, su autorizzazione scritta dell’operazione di resa, restando tassativamente esclusi la risoluzione del contratto e qualsiasi risarcimento danni.
- DIMENSIONI E TONALITÀ** I nostri materiali sono da classificarsi fra i prodotti cotti ad alta temperatura e come tali possono presentare differenze tra le dimensioni dichiarate e quelle effettivamente consegnate. Così si dica per le differenze di tono all’interno della medesima partita. Quanto sopra perciò non potrà essere oggetto di reclamo da parte del committente.
- IMBALLO E QUANTITÀ** Il buono stato degli imballi e della loro confezione nonchè della quantità consegnata resta accertato con l'accettazione della merce da parte del vettore. Questi, firmando la Bolla di Accompagnamento, si rende responsabile del buono stato del materiale e del quantitativo. Il compratore nel caso si verifichino rotture ed ammanchi dovrà chiedere eventuali danni o risarcimenti al vettore.
- RESI** Per nessuna ragione l’acquirente potrà restituire il materiale senza nostra espressa preventiva autorizzazione scritta e tutte le spese sono a carico del Committente.
- ANNULLI** Non verranno accettati annullamenti di ordini se il materiale è già stato prodotto o se è già stata avviata la lavorazione e molto più se è già stata effettuata la spedizione. L’annullamento dell’ordine comporterà in ogni caso l’obbligo da parte del Committente di pagare l’intera fornitura. Nel caso che sia fattibile l'accettazione dell’annullamento il Cliente sarà tassativamente tenuto a rifondere tutte le spese sostenute dal produttore fino a quel momento.
- PREZZI** I prezzi riportati sui nostri listini non sono per noi impegnativi. Ci riserviamo il diritto di modificarli prima dell'accettazione dell’ordine.
- PAGAMENTI** I pagamenti devono essere effettuati solo presso la nostra sede. Il ritardo di 10 giorni di ogni pagamento dovuto, o la mancata copertura nel termine stesso di un titolo di credito, girato o ceduto o emesso dal committente, costituisce grado di insolvenza. In tal caso sarà nostra facoltà sospendere le forniture ed annullare ogni rapporto in corso; immediatamente esigere l’integrale pagamento di ogni rapporto in corso; esigere l’integrale pagamento di ogni nostro credito ed agire giudizialmente al riguardo, in via esecutiva o cautelare nonchè per il risarcimento danni; in ogni caso, trascorsi 10 giorni da ogni pagamento dovuto, siamo autorizzati a emettere tratta a vista con spese senza preavviso. Inoltre decorreranno sul debito scaduto gli interessi moratori annui calcolati nella misura del tasso “prime rate” corrente maggiorato di 5 punti percentuali.
- UNITÀ MINIMA DI VENDITA** Non si effettuano vendite inferiori alla scatola.
- RISERVATO DOMINIO** Il materiale anche se spedito e regolarmente fatturato resta di nostra proprietà fino al pagamento totale della fornitura medesima anche in caso di passaggio o vendita terzi.
- FORO COMPETENTE** Per qualsiasi controversia sarà esclusivamente competente il foro di Modena.

General sales terms and conditions

- APPROVAL** All orders that we receive are considered to be binding only after our written confirmation has been issued.
- DELIVERY** The materials are intended as delivered upon loading at our warehouses. All transport risks, including missing pieces, breakage, deterioration and tampering are the sole responsibility of the Client, even if the price agreed upon is carriage free, FOB, or C&F. Agreements with forwarding agents are intended as concluded in the name of and on behalf of the Client, who hereby confirms and accepts their terms and conditions.
- TERMS OF DELIVERY** The terms of delivery are indicative, eventual delays in the delivery, interruptions, or total or partial suspensions of the supply do not allow any right to indemnification or compensation for damages.
- DISPUTES** The guarantee of the goods is limited only and exclusively to first rate materials, with a tolerance of approximately 5%. The difference in shades of colour cannot be declared as a material defect. Eventual complaints regarding the quality or the type of material must be submitted within 8 days from the date of delivery. The purchaser agrees to make available the disputed lots in order that the declared defects may be controlled. In any case, the installation exonerates the manufacturer from any liability. Eventual manufacturing defects or quality defects in the goods, where declared according to law and ascertained or recognized, give right only to the replacement of the defective materials, provided that the goods have been returned previously and the written authorization of the return operation has been issued, the resolution of the contract as well as any compensation for damages is peremptorily waived and excluded.
- DIMENSIONS AND TONALITY** Our materials are classified as products fired at high temperatures and as such may present discrepancies between the dimensions declared and those actually delivered. The same applies for differences in colours within the same production lot. Therefore, the client may not present a dispute regarding abovementioned product characteristic.
- PACKAGING AND QUANTITY** The good condition of the packaging and cartons as well as the quantity delivered are verified upon acceptance of the goods by the forwarding agent. The forwarding agent declares himself responsible for the condition and quality of the goods upon signing the packing list. In case of missing pieces of breakage, the purchaser must ask for eventual damages or compensation from the forwarding agent.
- RETURNS** For no reason will purchaser be able to return the material without our express prior written authorization and all the costs of the return will be assumed by the Client.
- CANCELLATIONS** Order cancellations will not accepted if the material has already been produced or if the production has already begun, and more so if the materials have already been shipped. In any case, the Client is obliged to pay the entire sum of the supply if the order is cancelled. If the acceptance of the cancellation is feasible, the Client will be peremptorily obliged to reimburse all the expenses sustained by the producer up to that moment.
- PRICES** The prices on our price list are not binding. We reserve the right to modify prices before accepting an order.
- PAYMENT** Payments must be made only in our main office. Delays of more than 10 days for each payment due or insufficient funds during the same term of a check, whether endorsed or transferred, or issued by the customer, constitutes bad debt. In this case, we reserve the right to suspend supply and annual all ongoing relations, immediately require total payment of all ongoing relations; require total payment of each credit and to make legal recourse, whether executive or precautionary, as well as request compensation for damages. In any case, after 10 days any payment due,we are authorized to issue an on-sight draft with expenses without notice. Furthermore, annual penalty interest will accumulate on the expired debt to be calculated according to the current “Prime rate” plus five (%) percentage points.
- MINIMUM PACKAGING REQUIREMENTS** Sales of less than one box will not be allowed.
- SELLER’S LIEN** The material, even is shipped and regularly invoiced, remains our property until payment in full of the invoice itself, even in case of passage or sale to third parties.
- PLACE OF JURISDICTION** For any eventual dispute, the only place of jurisdiction will be the Modena Tribunal.

SERVIZI DI LOGISTICA

ANNULLAMENTO ORDINI Per l’annullamento autorizzato di ordini di materiali già consegnati al nostro deposito e per resi autorizzati, verrà addebitato il 15% del valore imponibile, con fisso minimo di 50 €, per contributo spese di trasporto e riselezione.

ORDINI DI PICCOLE QUANTITÀ Per ordini di fondi, gradini o battiscopa inferiori ai 5 colli complessivi verrà richiesto un contributo di spese di packaging e movimentazione pari a 20 €.

SPALLETTIZZATO Per ordini di metratura inferiore al pallet completo, verrà applicata una maggiorazione pari a 1,80 €/m² fino al formato 120x120 incluso e 3,00 €/m² per i formati 120x280, 160x320 e tutta la serie Out.20.

CONSEGNE URGENTI Per preparazione di ordini entro le 24 ore, con un limite massimo di 2 articoli totali, verrà addebitata una maggiorazione di 30 € netta fissa.

IMBALLAGGI

ADEBITO Gli imballaggi speciali saranno addebitati al costo visibile nella tabella riepilogativa.

RESO Gli imballi dei formati 160x320 e 120x280 potranno essere resi e riaccreditati a condizione che vengano restituiti in buono stato.

Nulla potrà essere riconosciuto per imballi non più riutilizzabili o di formati di dimensioni inferiori.

LOGISTICS SERVICES

ORDER CANCELLATION For the authorized cancellation of orders for materials already delivered to our warehouse, and for authorized returns, 15% of the taxable value will be charged, with a fixed minimum of € 50, for transport and reselection costs.

SMALL QUANTITY ORDERS For orders of solid colour basic tiles, treads or skir ting boards amounting to less than 5 total packages, a contribution to cover packaging and handling costs of € 20 will be due.

ORDERS FOR LESS THAN 1 PALLET: for orders smaller than the full pallet, a surcharge of € 1.80/m² up to the 120x120 size included and € 3.00/m² for the 120x280, 160x320 and the entire Out.20 series will be applied.

RUSHED DELIVERIES For rushed orders (within 24 hours), with a maximum limit of 2 total items, a fixed net surcharge of € 30 will be charged.

PACKAGING

CHARGE Special packaging will be charged at the cost shown in the summary table.

RETURN The packaging of the 160x320 and 120x280 sizes can be returned and re-credited providing that it is returned in good condition. No amount will be credited for packaging that is no longer reusable or smaller in size.

Conditions générales de vente

- ACCEPTATION** Les commandes parvenues ne seront valables de manière définitive qu’après confirmation écrite de notre part.
- LIVRAISON** La livraison du matériel est à considérer effectuée au moment du chargement dans nos entrepôts. Tous les risques de transport, tels que les manques, les casses ,détériorations ou endommagements sont à la charge de l’Acheteur, même lorsque le prix convenu est franco , FOB ou C&F. Les accords conclus avec les transporteurs sont à considérer toujours au nom et pour compte de l’Acheteur, qui confirme et accepte le conditions au préalable.
- DÉLAIS DE LIVRAISON** Les délais de livraison ont un caractère indicatif; les éventuels retards de livraisons, interruptions, suspensions totales ou partielles des fournitures ne donneront droit à aucun dédommagement ou remboursement et intérêts.
- Reclamations** La garantie de la marchandise se limite seulement et exclusivement au materiel de premier choix, avec une marge de tolérance de 5% environ. Les différences de nuances ne pourront être dénoncées comme vice du matériel. Les éventuelles réclamations relatives à la qualité, au type de matériel, devront nous parvenir dans les 8 jours à partir du jour de livraison. L’Acheteur s’engage à mettre à disposition les parties contestées de manière à permettre le contrôle des défauts déclarés, sachant que la pose nous libère quoiqu’il en soit de toute responsabilité. Les éventuels vices ou défauts de qualité de la marchandise, si déclarés en vertu des termes de loi et confirmés ou reconnus, ne donnent droit qu’à la substitution des matériaux défectueux, à condition que les marchandises contestées ne soient rendues préalablement et, sur autorisation écrite de l’opération de restitution, en renonçant et en exluant ainsi de manière formelle la résolution du contrat tout comme les éventuels dommages et intérêts.
- DIMENSIONS ET NUANCES** Nos matériels se classent parmi les produits cuits à haute températures et peuvent présenter en tant que tels des différences entre les dimensions déclarées et celles effectivement livrées. C’est ainsi que sont considérées les différences de nuances à l’intérieur d’un même lot. C’est pourquoi, en vertu des conditions présentées précédemment, ceci ne pourra faire l’objet d’aucune réclamation de la part de l’Acheteur.
- EMBALLAGE ET QUANTITES** Le bon état des emballages, ainsi que de la quantité livrée est confirmé après acceptation de la marchandise de la part du transporteur. Ce dernier, en signant le Bon de Livraison, se tient responsable du bon état du matériel et de la quantité. En cas de casses ou manques, l’acheteur devra demander des éventuels dommages et intérêts ou dédommagements au transporteur.
- RESTITUTIONS** En aucun cas l’Acheteur ne pourra rendre la matériel sans préalablement recevoir une autorisation écrite de notre part et tous les frais sont à la charge de l’Acheteur.
- ANNULLATIONS** Aucune annulation de commandes ne sera acceptée si le matériel a déjà été produit ou si la phase de production a déjà été commencè, ni même si la livraison a déjà été effectuée. L’annulation de la commande comportera dans tous les cas l’obligation de la part de l’Acheteur de payer la totalité de la marchandise. Au cas ou l’acceptation de l’annulation est faisable, le Client sera formellement tenu à recouvrir tous les frais engendrés par le producteur jusqu’alors.
- PRIX** Les prix reportés sur nos catalogues ne sont pas définitifs. Nous nous réservons le droit de les modifier avant l’acceptation de la commande.
- PAIEMENTS** Les paiements ne doivent être effectués qu’après de notre siège. Le retard de plus de 10 jours de tout paiement dû ou la non couverture dans le même délai d’un titre de crédit, transféré ou cédé,ou bien émis par l’Acheteur, consitue un niveau d’insolvabilité. Dans ce cas, il est en notre pouvoir de suspendre les livraisons et annuler tout rapport en cours; d’exiger le paiement intégral et immédiat de nos crédits; d’exiger le paiement intégral de tout en notre faveur et d’agir judiciairement à cet égard, de manière exécutive ou préventive ainsi que pour les dommages et intérêts. Dans tous les cas, aussitôt qu’un paiement du dépasse le délai des 10 jours, nous sommes autorisés à émettre une traite à vue avec frais sans préavis. En outre, les intérêts moratoires annuels calculés en fonction du taux “premiers versements” courant majoré à 5 points pourcents, prendrant effet sur le débit dépassé.
- MINIMUM UNITE DE VENTE** Aucune vente inférieure à la boite ne peut être effectuée.
- DOMAINE RÉSERVÉ** Le matériel, même si livré et régulièrement facturé reste notre propriété jusqu’au paiement total de ladite marchandise, même en cas de passage ou vente à un tiers.
- TRIBUNAL COMPETENT** Le Tribunal de Modena sera compétent de manière exclusive en cas de litige.

Allgemeine verkaufsbedingungen

- BESTÄTIGUNG** Eingegangene Bestellungen sind für uns nur verbindlich, wenn sie schriftlich durch uns bestätigt wurden.
- LIEFERUNG** Die Lieferung des Materials ist für uns mit dessen Beladung bei unserem Lager abgeschlossen. Alle durch den Transport bedingten Risiken, einschließlich Fehlmengen, Bruch, Beschädigung und sonstige Beeinträchtigungen gehen zu Lasten des Auftraggebers, auch wenn der vereinbarte Preis frachtfrei, FOB oder C&F ist. Die Vereinbarungen mit den Speditiionsunternehmen werden im Namen und auf Rechnung des Auftraggebers getroffen, der die Entlastung bestätigt und erteilt.
- LIEFERFRISTEN** Die Lieferfristen sind ungefähr Angaben; im Falle einer Verzögerung, Unterbrechung bzw. teilweiser oder kompletter Aussetzung der Lieferungen besteht kein Recht auf Entschädigung od Schadenerstatz.
- BEANSTANDUNGEN** Die Garantie auf die Ware bezieht sich ausschließlich auf Material erster Wahl, bei einer Toleranz von ca. 5%. Unterschiede bei Farbttönen können nicht als Materialfehler geltend gemacht werden. Eventuelle Beanstandungen in Bezug auf die Qualität und Materialart müssen innerhalb von 8 Tagen ab dem Lieferdatum bei uns eingehen. Der Käufer verpflichtet sich, die beanstandeten Warenpartien für die Überprüfung der angezeigten Mängel zur Verfügung zu halten. Die Verlegung des Materials befreit uns in jedem Fall von jeglicher Haftung. Eventuelle Fehler od Qualitätsmängel der Ware, sofern diese innerhalb der gesetzlich vorgeschriebenen Fristen gemeldet, überprüft und anerkannt wurden, beinhalten lediglich das Recht auf einen Umtausch der fehlerhaften Materialien, unter der Bedingung, dass die beanstandete Ware vorher, nach schriftlicher Genehmigung der Warenrückgabe, zurückschickt wurde und unter Verzicht und Ausschluss des Anspruchs auf eine Vertragsauflösung oder jegliche Art von Schadenersatz.
- ABMESSUNGEN UND FARBTÖNE** Unsere Materialien sind als Produkte klassifiziert, die bei hohen Temperaturen gebrant werden, weshalb es sein kann, dass die tatsächlichen Abmessungen von den genannten Abmessungen abweichen. Das gleiche gilt für Farbunterschiede innerhalb desselben Warenpostens. Diese Umstände geben dem Auftraggeber kein Recht zu Beanstandungen.
- VERPACKUNG UND MENGE** Mit Annahme der Ware durch das Beförderungsunternehmen gelten der gute Zustand der Verpackungen sowie die übergebene Warenmenge als bestätigt. Das Transportunternehmen übernimmt mit Unterzeichnung des Versandscheins die Verantwortung für den guten Zustand und die Menge des Materials. Der Käufer muss sich im Fall von Brüchen oder Fehlware für eventuelle Schäden od Entschädigungen as das Beförderungsunternehmen wenden.
- WARENRÜCKGABE** Der Käufer kann die Ware in keinem Fall ohne unsere ausdrückliche schriftliche Genehmigung zurückgeben; alle entstehenden Kosten werden vom Auftraggeber übernommen.
- STORNIERUNGEN** Auftragsstornierungen werden nicht akzeptiert, wenn das Material bereits hergestellt wurde, die Produktion angelaufen ist oder die Ware gar bereits verschickt wurde. Bei der Stornierung einer Bestellung ist der Auftraggeber in jedem Fall verpflichtet, die gesamte Lieferung zu bezahlen. Falls die Stornierung akzeptiert wird, ist der Kunde verpflichtet, alle Kosten zu übernehmen, die dem Hersteller bis zu diesem Zeitpunkt entstanden sind.
- PREISE** Die in unserer Preisliste angegebenen Preise sind für uns nicht verbindlich. Wir behalten uns das Recht vor, diese vor de Bestellungsannahme zu ändern.
- ZAHLUNG** Die Zahlungen können nur direkt an uns erfolgen. Eine Verspätung von mehr als 10 tagen jeder geschuldeten Zahlung bzw. die fehlende Deckung eines girierten, abgetretenen oder vom Auftraggeber ausgestellten Kreditpapiers innerhalb desselben Zeitraums wird als Zahlungsunfähigkeit gewertet. In diesem Fall haben wir das Recht, die Lieferungen auszusetzen und jedes bestehende Geschäftsverhältnis abzubrechen; unverzüglich die vollständige Zahlung aller unserer Forderungen im Rahmen eines Vollstreckungs- oder Sicherstellungsverfahrens rechtlich zu beanspruchen, ebenso wie eine Entschädigung; in jedem fall sind wir 10 Tage nach Ablauf der Zahlungsfrist berechtigt, ohne Vorankündigung eine Sichttratte zuzüglich der entsprechenden Kosten auszustellen. Außerdem werden auf den geschuldeten Betrag die jährlichen Verzugszinsen in Höhe des laufenden, um fünf Prozentpunkte erhöhten Privatsdiskontsatzes berechnet.
- VERPACKUNGSGRÖSSE** Es werden keine Mengen unterhalb der Größe eines Kartons verkauft.
- EIGENTUMSVORBEHALT** Das Material bleibt auch bei regulärem Transport und normaler Rechnungsstellung bis zur vollständigen Bezahlung der Lieferung in unserem Eigentum, auch im Falle der Weitergabe oder des Verkaufs an Dritte.
- GERICHTSSTAND** Gerichtsstand in Streitfällen ist ausschließlic das Gericht Modena.

SERVICES DE LOGISTIQUE

ANNULATION DES COMMANDES Pour l’annulation autorisée de commandes de matériaux déjà livrés à notre entrepôt, et pour les retours autorisés, 15 % de la valeur imposable seront facturés, avec une contribution minimale fixe de 50 € pour les frais de transport et de resélection.

COMMANDES DE PETITES QUANTITÉS: pour les commandes de fonds, marches ou plinthes inférieures à 5 colis au total, une contribution aux frais d’emballage et de manutention de 20 € sera exigée.

PRODUIT DÉPALETTISÉ Un supplément de 1,80€/m² jusqu’au format 120x120 inclus et de 3,00 €/m² pour les formats 120x280, 160x320 et pour toute la série Out.20 sera appliqué aux commandes inférieures à la palette complète.

LIVRAISONS URGENTES Pour la préparation des commandes dans les 24 heures, avec une limite maximale de 2 articles au total, un supplément fixe net de 30 € sera facturé.

EMBALLAGES

FACTORATION Les emballages spéciaux seront facturés au tarif indiqué dans le tableau récapitulatif.

RETOUR Les emballages des formats 160x320 et 120x280 pourront être retournés et crédités à nouveau à condition qu’ils soient en bon état.

Aucun remboursement ne sera accordé pour les emballages de plus petite taille ou pour ceux qui ne sont plus réutilisables.

LOGISTIK-DIENSTLEISTUNGEN

STORNIERUNG VON BESTELLUNGEN Für die genehmigte Stornierung von Bestellungen von Waren, die bereits an unser Lager geliefert wurden, und für genehmigte Rücksendungen werden 15 % des steuerpflichtigen Wertes mit einem festen Mindestbetrag von 50 € als Unkostenbeitrag für Transport und Neuauswahl berechnet.

BESTELLUNG KLEINER MENGEN Bei Bestellungen von Grundfliesen, Stufen oder Sockelleisten unter 5 Packstücken wird ein Unkostenbeitrag für Verpackung und Beförderung von 20 € erhoben.

ENTPALETTIERT Bei Bestellmengen von weniger als einer ganzen Palette wird ein Zuschlag von 1,80 €/m² bis einschließlich Format 120x120 und 3,00 €/m² für die Formate 120x280, 160x320 und die ganze Serie Out.20 berechnet.

EILLIEFERUNGEN: Für die Bearbeitung von Bestellungen innerhalb von 24 Stunden und maximal 2 Artikel wird ein pauschaler Aufschlag von 30 € netto berechnet.

VERPACKUNGEN

VERPACKUNGSGBÜHR Die Kosten für Sonderverpackungen werden gemäß der zusammenfassenden Tabelle berechnet.

RÜCKGABE VON VERPACKUNGEN Eine Rückgabe und Gutschrift von Verpackungen der Formate 160x320 und 120x280 ist möglich, sofern sie in einem guten Zustand sind. Für Verpackungen, die nicht wiederverwendbar oder auf kleinere Formate rückführbar sind, wird nichts anerkannt.

Imballi

NUOVI SISTEMI DI IMBALLO

L'innovazione del progetto lastre si esprime anche attraverso la parte logistica del progetto. ABK Group rivoluziona il sistema di imballaggio delle lastre ed è a oggi l'unica azienda che ha portato il sistema a cavalletto impilabile alla dimensione di cm 75x284x147,5 (lastre 120x280), 75x168x109 (lastre 80x160) e 75x26x200 (lastre 26x200).

Questi i principali vantaggi offerti:

- essendo impilabile permette di ottimizzare gli spazi all'interno dei magazzini.
- la profondità di 75 cm consente di sfruttare a pieno il volume di carico dei container (3 pallets ne occupano perfettamente la larghezza).
- il posizionamento verticale del prodotto garantisce una maggiore protezione delle lastre durante le fasi di trasporto.
- facilita le operazioni sul cantiere in quanto le lastre si trovano già posizionate in verticale, il materiale è facilmente ispezionabile e removibile per l'installazione.
- le dimensioni complessive del cavalletto consentono maggiori spazi di manovra all'interno dei locali di posa rispetto alle casse tradizionali e agevolano il sollevamento del materiale mediante mezzi meccanici (gru-montacarichi).
- è caratterizzato da un sistema di regettatura che consente di liberare anche 1 solo collo alla volta, senza compromettere la stabilità del materiale che rimane sul pallet, evitando così il rischio di rotture. Le lastre dovranno essere liberate rispettando la sequenza opposta rispetto a quella con cui sono state confezionate, quindi iniziando dall'ultimo collo regettato.

Packaging

NEW PACKAGING SYSTEMS

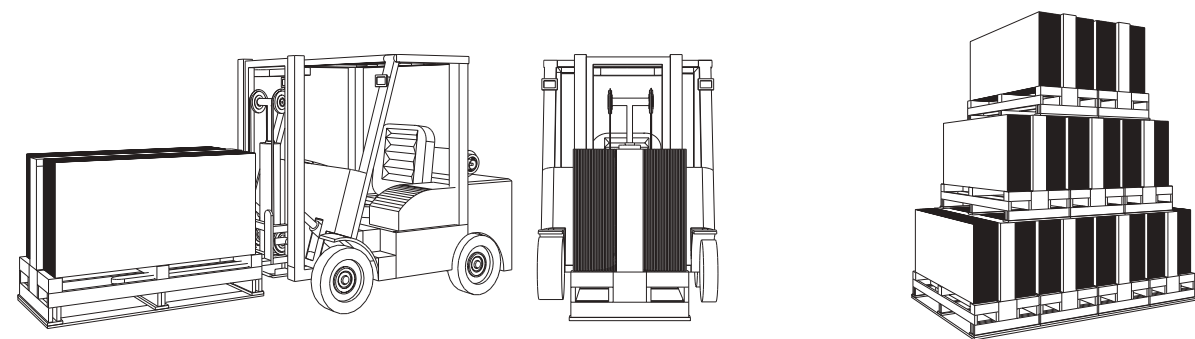

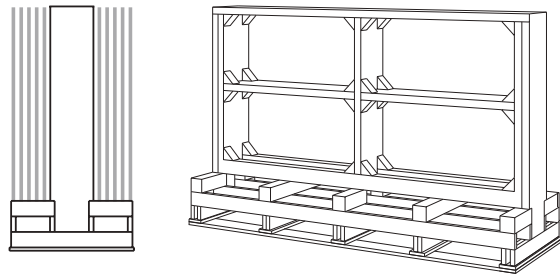

Innovation in slab's range is also reflected in the project's logistics. ABK Group has revolutionised the packaging of ceramic slabs and is the only company to have expanded the stacking rack pallet system to the 75x284x147,5 (slabs 120x280), 75x168x109 (slabs 80x160) e 75x26x200 (slabs 26x200) cm size.

This has the following advantages:

- stacking optimises the use of space in warehouses.
- the 75 cm depth enables full use of container load space (3 pallets fit perfectly side by side). The vertical positioning of the product better protects the slabs during shipping.
- it facilitates work on site, since the slabs are already positioned vertically, making the material easy to inspect and remove for installation.
- the overall size of the rack pallet provides greater space for manoeuvring in the installation area in comparison with conventional crates, and also makes it easier to lift the slabs mechanically (with a crane or lift).
- the rack pallet system employs strapping which allows the user to remove a single package at a time without affecting the stability of the other packages on the pallet, thus minimising the risk of breakage. The slabs must be released from the packaging by reversing the packaging sequence, i.e. starting with the last package to have been strapped on.
